Farm visits

This project has started in **October 2023** and will finish in **October 2025**.

# About the Project

CarboFarmHub aims to create a network of awareness hubs in various countries, enriching the rural identity as a driver of environmental and social innovation.

Our activities are designed to emphasize the role of farming in reducing environmental and social impacts while promoting sustainable societies.

# The Objectives

- ▶ **Raise awareness** among youth and stakeholders about European strategies for green transition and climate action.
- ▶ Enhance engagement and knowledge sharing among stakeholders and young people through various **activities**.
- ▶ Support the **upskilling process** for stakeholders and youth, emphasizing the value of collaborative and non-formal learning methods.
